

DEBANJAN SEN

Kolkata, West Bengal, India | deanjansen32@gmail.com | linkedin.com/in/debanjansen758 | github.com/debanjan758

PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on experience building and containerizing full-stack AI applications. Familiar with Docker, GitHub Actions CI/CD pipelines, and cloud deployment. Eager to own production infrastructure, automate operational tasks, and build the muscle memory for keeping systems alive at scale.

TECHNICAL SKILLS

Cloud & Infrastructure: AWS EC2 (instance setup, SSH, deployment), Docker, Nginx, Linux (CLI)

CI/CD & Automation: GitHub Actions (multi-stage pipelines, health checks, automated deployment), Shell scripting

Languages & Frameworks: JavaScript, TypeScript, Node.js, Express, React, Python

Tools: Git, Figma, Tailwind CSS, Vite

Certifications: Docker for Developers

PROJECTS

DevOps Demo — Containerized CI/CD Deployment 2025 | github.com/debanjan758/devops-demo

Docker · Nginx · GitHub Actions · Render (Cloud) · Linux

- Containerized an Nginx web server using Docker with a custom config; built and tested the image locally before deploying to cloud
- Built a two-stage GitHub Actions CI/CD pipeline — first stage builds the Docker image and runs a live container health check using curl; second stage triggers automated cloud deployment only if tests pass
- Deployed to Render cloud via Docker; every push to main automatically builds, tests, and deploys with zero manual intervention — live at <https://devops-demo-rsbi.onrender.com>
- Configured health check in CI that spins up the container, waits for Nginx to start, hits the endpoint, and fails the pipeline if the response is not 200 — catching broken builds before they reach production

EXPERIENCE

Product Design Intern — Employabilitylife Nov 2025 – Present

- Designed and iterated on product interfaces; collaborated cross-functionally with engineering to ensure implementation feasibility

Innovation Ambassador — MoE's Innovation Cell, Sister Nivedita University Sep 2024 – Present

- Organised and led hackathons and technical workshops for 100+ students; evaluated project pitches for technical feasibility and innovation

Student Representative — Institution's Innovation Council (IIC) Apr 2025 – Present

- Coordinating innovation-focused events and student team initiatives under the IIC

Marketing & Events — GeeksforGeeks SNU Chapter Jan 2025 – Present

- Managed technical event logistics and outreach for the university's GFG chapter

EDUCATION

B.Tech in Computer Science & Engineering — Sister Nivedita University, Kolkata 2023 – Present

ACHIEVEMENTS & ACTIVITIES

- Smart India Hackathon (SIH) 2025 — selected participant; built and pitched a production-ready technical solution under 36-hour constraints
- Active open-source contributor with public repositories demonstrating full-stack and AI project work
